

VOTE ON TARIFF TOMORROW

Senators Agree to Take it Then

ERRORS IN THE BILL

Senator Aldrich Silent as to Manner of Correcting Them—Clapp Denounces Measure—Bailey Threatens Long Talk on Resolution.

Washington, Aug. 4.—The tariff conference report will be voted upon Thursday in the Senate at 2 p. m. An agreement to this effect was reached at the conclusion of a speech by Senator Clapp.

The unanimous consent agreement was reached by motion of Senator Bailey. An effort was made by informal conference to agree upon 3 p. m. to-day as the time at which a vote should be taken but some senators feared that all of the speeches to be made could not be completed by that hour and therefore it was regarded as a better plan to have the vote on Thursday.

The program for the adjustment of the misunderstanding in relation to the reduction of the duties on boots and shoes and harness and saddlery provides for the adoption of a concurrent resolution instructing the enrolling clerk to correct the hide and leather paragraph so as to make the reductions apply to products made from calf skins as well as leather from hides of cattle.

Such a resolution could not be passed until after the conference report has been adopted. Some of the heretofore dissatisfied Western senators were asking yesterday what assurance would be given them that such a resolution would pass. Most of them, however, said they would be willing to take the words of Senator Aldrich, Speaker Cannon and Representative Payne that the action suggested would be taken.

As soon as the trouble of Monday had been patched up, the movement to get an early vote was started. Many of the Senate leaders are seeking to make the Republican vote against the adoption of the conference report as small as possible. Senators with grievances are being asked to support the bill from motives of party loyalty.

President Taft, it is said, has joined in this campaign. Yesterday he invited Senators Borah, Brewster, and Doolittle to have luncheon with him at the White House. It was rumored about the capital that all these senators would be asked to vote for the conference report.

Messrs. Borah and Brown have already decided that they will vote for the report, and it is generally believed that Mr. Doolittle will do likewise.

The decision of Monday with reference to leather had a reassuring effect, as was made evident by the placid countenances of the Republican leaders when they entered the Senate chamber yesterday. Senator Aldrich expressed confidence that the bill now would go through without further difficulty and even the so-called "range" senators, who have been the most strenuous advocates of a duty on hides, were inclined to join in this expression of confidence.

A few of the "insurgents" were still displeased, but it was evident that most of them would also fall into line in the final round-up.

Upon the assumption that Congress will adjourn late Thursday night or Friday, President Taft is making his plans to leave Washington for Beverly, Mass., late Friday afternoon, arriving at his summer home early Saturday morning.

LUCKY SPRINGFIELD.

Great Electrical Plant to Be Built There, Boom in Building Expected.

Springfield, Aug. 4.—This town, always spoken of as the "smallest town in southern Vermont," is about to experience a development hitherto unknown. If present indications are any criterion.

The water power on Black river at North Springfield, which commands the whole river, has been acquired as well as many of the farms above, also flowage rights, etc., by parties that propose to establish a great power plant that will distribute electricity to the machine shops at Springfield. The intention is to create a huge lake or storage reservoir to store the water in periods of drought such as occurred last year and this. Several thousand dollars have been paid the farmers along the stream, in many cases double what the farms would sell for in open market.

John T. Black has purchased the J. C. Holmes cotton mill of the Springfield Savings bank for \$25,000. This mill has been idle for two years since the failure. It is reported that it will be fitted up as a carding mill.

Tenements are scarce and builders are looking for a busy season. "Additions" are being planned and put on the market by enterprising speculators. The Lovell farm is the latest to be cut up.

Why Not Try

POPHAM'S

ASTHMA REMEDY?

Given promptly and positive relief in every case. Sold by druggists. Price \$1.00. Trial package by mail to cents. Williams' M.F. Co., Proprietors, Cleveland, Ohio.

Sold by C. H. Kendrick & Co., Barre, Vt.

The Mission

Of these corpses in your blood that have been called "Little Soldiers," is to fight for you against the disease germs that constantly endanger your health. These corpses are made healthy and strong by the use of Hood's Sarsaparilla.

This medicine is a combination of more than 30 different remedial agents in proportion and by a process known only to ourselves and it has for thirty years been constantly proving its worth. No substitute, none "just-as-good."

THE SPORTING WORLD

Dr. Roller Hurl's Defi.

B. F. Roller of Seattle, Wash., physician, wrestler, boxer and all round athlete, is again on the warpath. He has hurled a deft at Stanley Ketchel and "Philadelphia Jack" O'Brien. Roller says he is anxious to exchange jabs, uppercuts and swings with either of the two in a six, ten or twenty round bout. He thinks he is the man to regain the pugilistic crown now worn by Jack Johnson to the white race. Roller has been before the public in many roles. Several years ago he was a conspicuous figure in University of

DR. B. F. ROLLER.

Pennsylvania athletics. Roller was a starwart fellow when he entered the medical school of the university, coming from De Pauw university, and he was at once picked for the football squad. He played in the practice games, but was not on the eleven because it was learned that he had played four years with the De Pauw team; therefore under the football rules he was ineligible for the university eleven. Roller has had fairly good success in the wrestling game and has met defeat only at the hands of Champion Frank Gotch.

Yesterday's American League Scores.

At Boston, (first game) Boston 2, Detroit 1; (second game) Boston 3, Detroit 7.

At New York, (first game) New York 5, St. Louis 4 (11 innings); (second game) St. Louis 7, New York 3.

At Philadelphia, (first game) Philadelphia 2, Chicago 1; (second game) Philadelphia 10, Chicago 4.

At Washington, (first game) Cleveland 6, Washington 0; (second game) Cleveland 2, Washington 1.

American League Standing.

	Won.	Lost.	Pct.
Detroit	60	30	.625

St. Louis	37	52	.414
Brooklyn	34	58	.370
Boston	25	65	.278

Base Ball Notes.

Ned Jefferson, the big Yale first baseman, has accepted terms with the Johnstown club of the Tri-State league and will join that club within a few days. The New York American club has let out pitcher George McConnell to the Rochester team of the Eastern league. He will be recalled in the fall.

The selection of John A. Heydler as successor to the late Harry C. Pulliam as president of the National base ball league is a deserving one. Heydler was the logical candidate through his experience as secretary and acting president.

The Doves won the only game of their Western trip at Chicago. It is expected that there will be another double header at Boston to-day with the Tigers.

Connors' pitchers are now doing well. Walsh has come back into form and together with Smith and Scott should make things hum.

Shinnel of the Waterbury team came to the rescue Monday with a home run in the tenth that defeated the Hartford 4 to 3.

The Cherokee Indian base ball team defeated the Equinox team at Manchester, Vt., Monday by a score of 12 to 8.

There does not seem to be even a race between any of the teams in the National league this year. It looks now as though the teams are fixed the way

SWEDEN FEARS A REVOLUTION

Labor War is Declared, and King is Ready

TO DECLARE MARTIAL LAW

Many Stores Already Closed—No Milk Is Being Delivered in City of Stockholm and Sale of Liquor Is Prohibited.

Stockholm, Aug. 4.—A labor war throughout Sweden that is scheduled to begin to-day threatens to develop, in Stockholm into something approaching a miniature revolution. The trouble will be enormously aggravated by the present general strike and lockout.

The members of the Young Socialists party are striving to give the movement a revolutionary character, and the government, warned that a political campaign is going on at the same time, has taken steps to nip the expected disorders in the bud.

The authorities have decided, at the first signs of insurrection, to declare Stockholm in a state of siege.

Soldiers are being quartered in different sections of the city and suburbs, and the entire standing army of Sweden is ready for emergencies. The situation has suddenly taken so serious a turn that King Gustaf has summoned the members of Parliament to Stockholm, and a special session of the Rigsdag is expected.

Great consternation prevails in the capital at these unexpected and dangerous developments in the situation. A civil guard corps is being organized for the protection of property and the banks are closed and carefully guarded. All the ferries running out of Stockholm have ceased operations, and the large steamers engaged in the summer in carrying visitors and residents to the sea shore resorts in the archipelago have suddenly stopped running, discharged their crews, and are being laid up for this winter. This summer traffic is usually continued until the month of October.

It is expected that the present total of about 100,000 idle workmen will be largely increased by to-day. It is anticipated, also, that the cab and street car service in Stockholm will stop running to-day, and arrangements are being made to run the water works and the electric light plants by soldiers.

The bridges leading to the islands adjacent to Stockholm are closely guarded. Many stores already have been closed, and no milk is being delivered in the city. The sale of spirits, beer and wine has been prohibited in both shops and restaurants.

The labor conflict that is at the bottom of this trouble originated in a dispute over wages in the woolen and cotton industries. In the beginning 13,000 men were locked out and other industries since have become involved until Monday the Employers' Federation declared a lockout of the iron foundry hands, numbering about 30,000 men. A total of 80,000 men were reported locked out Monday, and their numbers are increasing rapidly.

KING EDWARD AND THE CZAR.

Cruising About Cowes on The Britannia.

Cowes, Eng., Aug. 4.—King Edward, accompanied by his guest, the emperor of Russia, who arrived here yesterday, is spending the day cruising on his old cutter Britannia, and in the meanwhile M. Isonovsky, the Russian minister of foreign affairs; Count Benckendorff, the Russian ambassador to Great Britain, and Sir Edward Grey, the British foreign secretary, are discussing matters of diplomacy aboard the admiralty yacht Echnatress.

King Edward and the emperor witnessed the start of the race for the king's cup, the principal event of regatta week, as well as the competition of the 15-meter boats. In this event King Alfonso's Hispania made her first appearance in English waters, and took first prize by a good margin. She defeated five English and three Spanish boats and one French boat.

WARRANT FOR WILLIAMS.

State Officers Seek to Arrest Sailor of U. S. Vermont.

Provincetown, Mass., Aug. 4.—Attorney-General Dana Malone of Massachusetts sent State Officer Ernest Bradford here yesterday with a warrant for David W. Williams, colored, of Marietta, Ga., and a mess hand on the battleship Vermont, who is charged in the warrant with manslaughter in causing the death of Harrison H. Foster in a boxing bout last Friday.

Officer Bradford started out to the Vermont at 12:30 p. m., and stated that if the captain of the vessel refused to give up the man an appeal would be made to Rear Admiral Schroeder or to the navy department.

They will finish, with the exception of St. Louis, who may catch Philadelphia. In the American league, however, the finish will be exciting for the pennant and also for place.

It is estimated that fully 28,000 fans saw the Red Sox take a fall out of the Tigers the first game of the double-header yesterday.

RELIEF IN MEXICO HELD UP

Too Much Red Tape Causes Suffering

TEMPORARY STRUCTURES

For Homeless Inadequate—A Scarcity of Water in the Capital—The Water Mains Buckle as a Result of the Shaking.

Mexico City, Aug. 4.—A dispatch received from Acapulco states that the earthquake shocks continue. All buildings which remain standing are untenable, a heavy rain is falling, and many are suffering from want of shelter. The tents and temporary shacks in which the people are living are pronounced miserably inadequate. A number of citizens are acting as special policemen. There has been some looting. Food, clothing and medicine are urgently needed, but thus far no relief steps have been taken by the federal government.

It is stated at the war department that no request for national aid has been received. It is said relief measures are being held up through red tape. The appeal for federal aid must first be made to Governor Flores de Guerrero, who in turn will transmit it to President Diaz. The people of Acapulco have heard that the United States has offered to send food and supplies on a warship and are overjoyed at the prospect. The federal authorities here deny knowledge of outside relief.

A peculiar feature of the disturbance is that it seems to have killed most of the growing crops. Geologists and soil experts, it is said, are unable to account for this fact. Vegetation of all kinds has died up since the shocks began to be felt and it is hardly possible to find a thriving field of grain or vegetables throughout the affected region.

Refugees report great distress in the earth in many places and declare that the ground is so hot that it blisters their feet to walk upon it for any length of time. The heat has sapped the moisture from the ground in many places and the accounts for the fact that the crops are destroyed. Many believe that the crust of the earth has become very thin in this region because earthquakes have been numerous in the past year. Even large trees are said to be withering as if they would die. This blight of the vegetation of the country occur in its worst form only in patches, but it is felt throughout the entire stricken section in a more or less severe manner.

The fact that all electric plants in the larger cities of Mexico were stopped because of the earthquake shocks led to additional terror among the victims of the visitation. The lights have not been repaired in any of the stricken cities and the refugees shiver in the darkness at night, without food, and bemoan their fate.

WATER FAMINE IN MEXICO CITY.

Result of Buckling of the Water Mains During the Earthquake.

Mexico City, Aug. 4.—After four days of one of the most acute water famines that Mexico City ever experienced owing to the buckling of the water mains at the time of the earthquake on Friday, Director of Public Works Puga said on Monday that by to-day the scarcity of water would be relieved and the mains repaired. In every part of the city water is at a premium, and the few fountains still dripping are surrounded by crowds of persons who carry the water in buckets to their homes.

TO CLASSIFY FREIGHT RATES.

An Important Meeting Was Held at Chicago.

Chicago, Aug. 4.—The committee appointed by the National association of Railway Commissioners to report on the uniform classification of freight rates met yesterday for preliminary work. Interstate Commerce Commissioner Clark presided. The Eastern members of the committee are M. S. Decker of the New York Railroad commission, and O. P. Gohlis of the Ohio Railroad commission. A large number of Chicago railroad men appeared before the committee to discuss the questions involved. Mr. Clark made this statement:

"The meeting was for the purpose of discussing the question of tentative changes that have been suggested to the commission from various sources. The railroads seem willing to concede certain points and the shippers are in the same position. This, we think, eventually will lead to an agreement on a schedule for freight rates that will satisfy the demand throughout the country. It is a hard question to determine and our impression will be converted into a report that we shall make to the National association of Railway Commissioners during the early fall. Our work today covered many important points, but we cannot unfold them at this time."

TO SEND THREE BATTLESHIPS.

France's Delegation to The Fulton Celebration.

Paris, Aug. 4.—The American embassy has been formally notified that France will send a squadron of three battleships to New York to represent the government at the Hudson-Fulton celebration next month. The vessels will be accompanied also by a member of the French Institute.

WE WIN THAT CHINESE LOAN.

British and French Bankers Accept Terms and Germans Will Follow Suit.

London, Aug. 4.—An early and favorable outcome of the negotiations for the participation of American bankers in the Hankow-Szechuen loan of \$27,500,000 is anticipated. So far as the bankers themselves are concerned, an agreement has been practically reached. The English and French groups already have accepted the American terms, and it is expected that the Germans shortly will do likewise.

It is probable that another meeting will be held in Paris formally to conclude the arrangements, but this will be merely a ratification. Otto H. Kahn of Knin, Loeb & Co., New York, already has called for home, and Willard D. Straight, the representative of the American bankers, is in Berlin.

The negotiations between the governments concerned are now limited to the point which, it is believed, is easy of solution. Whitehead Reid has deferred his projected visit to America on account of the negotiations, which require the presence of ambassador in London.

Mrs. Reid, however, and D. O. Mills will sail for New York on the Lusitania Aug. 7.

SUES AN AUTOMOBILIST.

Joseph C. Rice of Northfield Claims \$2,000 Damages.

Northfield, Aug. 4.—A few weeks since Joseph C. Rice of Northfield, was struck by an automobile while he was working on the highway, as noted in these columns, and had a very narrow escape from serious consequences. Mr. Rice has never fully recovered from the injury sustained to one leg.

The car which struck him was a Stanley in the hands of a demonstrator, H. M. Talbot of White River Junction. Mr. Rice has now brought suit for \$2,000 damages against the demonstrator and the case is set for trial at the September term of Washington county court.

Mr. Rice alleges negligence and gross carelessness in that the driver did not give any signal of his approach. The defense denies any responsibility, claiming in substance that he was running very slowly, had given the usual warnings and that after Mr. Rice had stepped out of the road to allow the machine to pass, as the defendant supposed Mr. Rice again stepped into the highway directly in front of the machine.

RANSOM OF \$25,000 DEMANDED.

Employee of Childrens Father Is Suspected.

St. Louis, Aug. 4.—Grace Viviano, five years old, and Thomas Viviano, three years old, were kidnapped yesterday near the home of their parents in the Italian colony. Shortly after the children disappeared a letter demanding \$25,000 ransom was delivered to the father of the children, a manufacturer of spaghetti. The police are searching for Samuel Turrisi, an employee of Viviano.

HARRIMAN MUCH BETTER.

He Probably Will Return to New York About Sept. 10.

New York, Aug. 4.—Private advices received here yesterday stated that E. F. Harriman's health was greatly improved, his condition being better than for several years. It was learned that he was making plans to leave Washington for his summer home at Beverly late Friday afternoon—arriving there early Saturday morning.

TAFT TO BEVERLY ON FRIDAY.

He Assumes That Congress Will Have Adjourned By That Time.

Washington, Aug. 4.—Upon the assumption that Congress will adjourn Thursday night or Friday, President Taft is making his plans to leave Washington for his summer home at Beverly late Friday afternoon—arriving there early Saturday morning.

TO WED AMERICAN.

Sarah Bernhardt's Granddaughter to Marry Soon.

Paris, Aug. 4.—The GU Blas states that Simone Bernhardt, a granddaughter of Sarah Bernhardt, shortly will be married to Edward Cross, an American who is a resident of London.

THE GREAT VAN AMBURG AND HOWE'S LONDON SHOWS

In Addition to Complete Zoo and All Features of Regular Circus—Coming to Montpelier.

With the aid of imagination some fairly adequate idea of ancient splendors may be formed. Magnificent chariots drawn by Arabian stallions, herds of elephants and camels carrying Bikaners, warriors in chain armor, sacred cattle and carts of golden plush, bullocks covered by silver trappings, odd conveyances harnessed to elephants, camel teams and many things from India, all take part in this production.

Howe's Great London Shows carry a large amount of live stock. Over two hundred horses have to be cared for every day. It takes tons of provender to feed them and the menagerie.

The animals of the menagerie are generally of the most interest. The hardest and longest lived and most intelligent is said to be the elephant.

Some of the largest of this show are used to push the heavy wagons and cages about the lot when the show is setting up.

One morning an elephant became enraged at his driver and wheeled quickly and struck the man with his trunk. The heavy eyes of the animal glistened as he trumpeted his anger. The keeper lashed the big brute with his whip and subdued him without any damage being done. Had the man been hit by the blow it would have killed him. When an elephant gets so bad that he is dangerous the owners back him up. The animal killed, although the killing of an elephant means a loss of several thousand dollars.

Shows carry everything that can be found in a good-sized city. With the aggregation is a blacksmith, a barber, harness maker, two painters, glider, cook, bakers, electricians, a minister, veterinary doctors, and its regular family physician.

Two exhibitions are given daily, rain or shine, and in case of inclement weather waterproof tents insure ample protection and comfort.

The show will be at Montpelier on Saturday, Aug. 7.

WANT FREEDOM OF WORSHIP

Struggle is Now Going on in Portugal

FREE FIGHT TAKES PLACE

In House of Parliament—Turkish Troops for Crete, It Is Reported—The Story Published by Paper in St. Petersburg.

Lisbon, Aug. 4.—Free thinkers from all political parties in Portugal, represented by a liberal committee, yesterday presented to the Cortes a petition for the suppression of the religious order in Portugal and the abrogation of the existing laws against freedom of conscience. The committee was accompanied to the houses of Parliament by an immense crowd and some wild scenes ensued. Among other things, the petitioners asked the abrogation of the recent law permitting religious associations to acquire landed property, a procedure which up to the present time has been illegal. Senator Canache moved the consideration of the subject, and when the motion was voted down the galleries broke out in protestation. The deputies engaged in a struggle in which desks and chairs were overturned, and the chamber had to be cleared twice. The tumult was continued in the streets, but without serious results.

POPE PRAISES AMERICA.

His Words Reported By Mgr. Fanconio.

New York, Aug. 4.—Monsignor Falconio, the apostolic delegate at Washington, returned yesterday from Europe on the steamer Kronprinzessin Cecilie. The apostolic delegate has been abroad since the latter part of May, having sailed to participate in the ceremonies attending the celebration of the golden jubilee of the American college in Rome. A banquet was given in his honor there by the American pilgrims on June 12, and the following day Monsignor Falconio was received in audience by the pope. Monsignor Falconio was accompanied by a number of priests who had also attended the American college golden jubilee. "The pope was much pleased with the generosity of Americans in aiding the stricken Sicilians in the earthquake," said the apostolic delegate. "He sent a special blessing to the American people."

A ROOSEVELT RAILROAD.

Louisiana Line Named After The Ex-President.

Baton Rouge, La., Aug. 4.—Former President Roosevelt has had a railroad in Louisiana named for him. It is the Roosevelt & Western and is seven miles in length, extending from a point on the main line of the Memphis, Helena & Louisiana railroad to Shiloh, La.

Judge Dewey Appeals.

Boston, Aug. 4.—One of the most unusual as well as voluminous documents that has appeared at the court house for some years, were the exceptions and brief for former Judge Henry S. Dewey, who seeks to have retried his \$76,000,000 suit against five members of the Good Government association who, he claims, libeled him in the municipal campaign of 1905, when Judge Dewey was a candidate for mayor. The exceptions and brief will be sent to Judge Sherman, who is about to leave for an extended European journey.

The GREAT VAN AMBURG and HOWE'S GREAT LONDON SHOWS

TWO BIG SHOWS UNITED AT MONTEPELIER, On Saturday, August 7th

The Show this year is Bigger and Better and in a More Commanding position than ever before to maintain their unrivaled standing and rank, and to Amaze and Delight Their Thousands of Patrons.
